# GoToWebinar Control Panel

A detailed screenshot of the GoToWebinar control panel interface, enclosed in a dashed blue border. The interface is divided into several sections:

- Audio Section:** Includes a "Sound Check" indicator with three green bars and a question mark. Below it are three radio button options: "Computer audio" (selected), "Phone call", and "No audio". There are two volume sliders: one for the microphone (labeled "Microphone Array (Realtek High Defi...)" with a green level indicator) and one for the speakers (labeled "Speakers (Realtek High Definition Au...)" with a green level indicator). A "Talking:" indicator is present below the sliders.
- Questions Section:** Features a text input field with the placeholder text "[Enter a question for staff]" and a "Send" button to its right.
- Control Panel Summary:** A section at the bottom containing the text "Control Panel", "Webinar ID: 809-804-275", and a red dot icon followed by the text "This session is being recorded". The GoToWebinar logo is at the bottom.

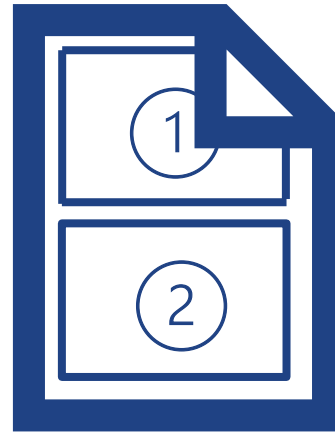

A blue arrow points from the right side of the monitor icon to the top of this detailed view. A small blue rectangular box highlights the "This session is being recorded" text in the bottom section.
