**Financial Project I.D. #
429246-1-52-01**

Safety Improvement Project, Guardrail Installation

**Along State Road 80, From
East of State Road 15 to
the Intersection of County
Road 880.**

PROJECT INFORMATION

The Florida Department of Transportation plans to complete the following Safety Improvements on State Road 80.

- *Installing guardrail along the majority of the south side and along portions of the north side of roadway from east of State Road 15 to County Road 880 (Approximately 18 miles).*
- *Shoulder re-grading and sodding along portions of the roadway.*
- *During shoulder work, periodic single lane closures will occur to allow for safety of present work crews.*

**This project will begin
construction by July 2011
and is to be completed by the
end of the year.**

**Estimated Construction
Cost: \$4.3 million**

FDOT

has identified these additional measures that will help to better delineate the curves along this 18-mile-long stretch of SR 80 between County Road 880 and State Road 15.

These include installation of signs and pavement markings in both the eastbound and westbound direction:

- *Warning signs
Approaching curves*
- *Signs delineating the curves*
- *Reflective pavement markers
on the lane striping at curves*

**Installation of these
improvements
will begin
Feb. 21, 2011,
and is
to be completed
within one month.**
