

FDOT Southern Blvd. Bridges Replacement Project Update Friday, March 2, 2018

Please be advised Flagler Drive north of Southern Boulevard and Southern Boulevard east of Flagler Drive will have intermittent single-lane closures from 9:30 a.m. to 3:30 p.m. daily from Wednesday, March 7, to Friday, March 9, as a temporary construction wall is installed at the northeast corner of Flagler Drive and Southern Boulevard. Police officers will assist in maintaining traffic through the intersection.

The Southern Boulevard (SR 80) Bridges Replacement Project includes replacing the existing bascule (draw) bridge and tide relief bridge over the Intracoastal Waterway (ICWW) and Lake Worth Lagoon between the Town of Palm Beach and the City of West Palm Beach. The project limits are between Washington Road in West Palm Beach and State Road A1A/South Ocean Boulevard in Palm Beach. New decorative lighting, pedestrian features, traffic signals, signage and drainage are included. A temporary bridge will be built north of the existing bridge to maintain traffic while the replacement bascule bridge is under construction. Active construction began April 3, 2017, and will last until early 2021. The estimated construction cost is \$93 million.
