

SOUTHERN BOULEVARD BRIDGES REPLACEMENT PROJECT

Project Update
Friday, September 27, 2019

Please be advised Flagler Drive will be closed between Southern Boulevard and Worth Court North beginning Monday, Oct. 7. It will remain closed through summer 2020 as the roadway is reconstructed. Access will be maintained for local traffic only for Flagler Promenade North and South. Sidewalks also will be closed. Traffic will be detoured as follows (see attached map):

- Traffic going north on Flagler Drive should: Go west on Worth Court North to Washington Road; go north on Washington Road to Southern Boulevard; go east on Southern Boulevard to Flagler Drive.
- Traffic going south on Flagler Drive should: Go west on Southern Boulevard to Washington Road; go south on Washington Road to Worth Court North; go east on Worth Court North to Flagler Drive.

The Southern Boulevard (State Road 80) Bridges Replacement Project includes replacing the existing bascule (draw) bridge and tide relief bridge over the Intracoastal Waterway (ICWW) and Lake Worth Lagoon between the City of West Palm Beach and the Town of Palm Beach. The project limits are between Washington Road in West Palm Beach and State Road A1A/South Ocean Boulevard in Palm Beach. New decorative lighting, pedestrian features, traffic signals, signage and drainage are included. A temporary bridge has been built north of the existing bridge to maintain traffic while the replacement bascule bridge is under construction. Active construction began April 3, 2017 and will last until early 2021. The estimated construction cost is \$93 million.
