projects in Palm Beach County.

**B**eginning 6 a.m., Monday, Aug. 24, pedestrian and bicycle traffic on the T-Rex Trail in Boca Raton, Florida, will be detoured for **approximately six months**. This closure is necessary to facilitate safe construction of the new Spanish River Boulevard bridges over I-95. During this closure, pedestrian and bicycle traffic will be detoured via Technology Way.

The new bridges being constructed over I-95 on Spanish River Boulevard will provide two eastbound lanes of traffic and two westbound lanes of traffic. These bridges are two of 13 being constructed in association with this \$67.7 million new interchange project.

This 2.5-mile project began construction on January 13, 2014 and is expected to be completed in summer 2017, weather permitting. Work is being performed by Astaldi Construction Corp., with Creative Engineering Group, Inc. administering the construction contract for the Florida Department of Transportation.
