

FLORIDA DEPARTMENT OF TRANSPORTATION - DISTRICT FOUR

95 Express Phase 3B-1

I-95 from south of SW 10th Street to south of Glades Road

Financial Project ID Numbers: 433108-6-52-01 & 433109-4-52-01

Pile Driving for Hillsboro Canal Bridge Reconstruction to Begin Monday, June 1, 2020

Widening of I-95 in the cities of Boca Raton and Deerfield Beach is underway as part of 95 Express Phase 3B-1, with the project currently in the last phase of construction. As part of the bridge reconstruction operation at the Hillsboro Canal, pile driving will occur. This activity, pictured below, can create noise. Permitted construction times are 7 a.m. until 6 p.m., Monday through Friday, and 8 a.m. until 7 p.m. on Saturdays. No work is permitted on Sundays or holidays. FDOT estimates that pile driving for this western, or I-95 southbound, section of the bridge will be completed within two months, weather permitting. Bridge construction crews will be on site at this location through December 2020.

This project will extend the High Occupancy Toll lanes from south of SW 10th Street to south of Glades Road in Broward and Palm Beach counties, to include two Managed Lanes in each direction. Scope of work includes widening and converting the existing I-95 HOV Lanes to Managed Lanes, reconstruction of the Hillsboro Canal Bridge, bridge widenings at Palmetto Park Road and Camino Real, construction of a northbound and southbound auxiliary lane between Hillsboro Boulevard and Palmetto Park Road, construction of a northbound auxiliary lane between the SW 10th Street entrance ramp and Hillsboro Boulevard exit ramp, guardrail, barrier wall, drainage, landscape relocation, and ITS installation.
