

Midway Road (County Road 712) Widening Project FM#: 231440-2-52-01

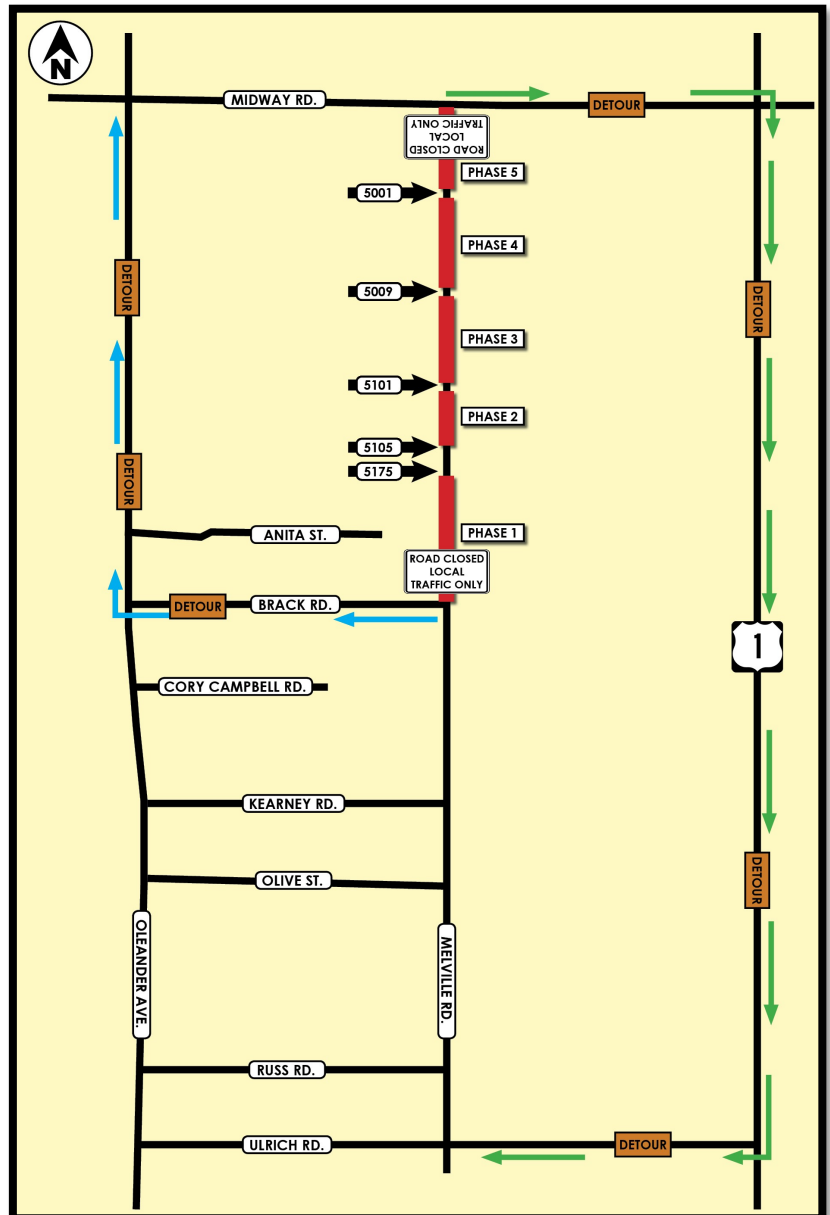

Full Closures on Melville Road Anticipated to Begin July 6, 2017

Starting July 6, 2017, the contractor is anticipated to begin drainage work along Melville Road between Midway Road and Brack Road that will necessitate five (5) consecutive phases of full closures. These closures will start at the south end near Brack Road and move north to Midway Road, and they will take approximately 3 months total to complete, weather permitting. The details of each phase are as follows:

- **Phase 1:** Melville Rd. from Brack Rd. north to 5175 Melville Rd. (approx. 800') for approximately 3 weeks
- **Phase 2:** Melville Rd. between 5105 and 5101 Melville Rd. (approx. 100') for approximately 1 week
- **Phase 3:** Melville Rd. between 5101 and 5009 Melville Rd. (approx. 350') for approximately 3 weeks
- **Phase 4:** Melville Rd. between 5009 and 5001 Melville Rd. (approx. 370') for approximately 2 weeks
- **Phase 5:** Melville Rd. between 5001 Melville Rd. and Midway Rd. (approx. 290') for approximately 3 weeks

Motorists should detour via either Brack Road to Oleander Avenue or U.S. 1 to Ulrich Road. Residents and emergency services will have access to all properties along Melville Road at all times.

This drainage work is part of the Midway Road widening project from just west of South 25th Street to just east of U.S. 1. Work on this project includes: reconstructing the existing two-lane Midway Road to a four-lane, divided highway with a raised median; constructing a new signalized intersection at Sunrise Boulevard; constructing a new bridge over the North Fork St. Lucie River; constructing a 6-foot sidewalk on the north side and a 12-foot multi-purpose trail on the south side Midway Road; constructing 4-foot bike lanes on both sides of the roadway; reconstruction of S. 25th Street, Sunrise Boulevard, and Oleander Avenue at their respective Midway Road intersections; drainage improvements, including constructing 6 retention ponds at 5 locations; and signage, signalization, and lighting improvements.

If you have any questions, comments, or concerns during this phase of construction please contact Kathleen Dempsey, Project Community Outreach Specialist, at (772) 359-5118, kdempsey@corrado.com, or visit www.d4fdot.com.
