On Friday, October 27, 2017, Carr Construction, LLC, in conjunction with the Florida Department of Transportation (FDOT), is anticipated to begin the U.S. 1 signalization upgrade project from State Road 70 / Virginia Avenue to State Road A1A / Seaway Drive in the City of Ft. Pierce.

This project is expected to be completed by spring 2018, weather permitting. The cost for construction is \$932,300.48, and FDOT will be overseeing the project.

This 2.195-mile project will upgrade 11 signalized intersections along U.S. 1 by implementing Adaptive Signal Control Technology in which traffic signal timing adapts based on daily (real-time management of traffic) traffic demand. This project also includes reconstruction at ADA curb ramp locations. Signalization will be upgraded at the following intersections:

- State 70 / Virginia Avenue
- Ohio Avenue
- Chipola Road / Parkway Avenue
- Georgia Avenue
- Delaware Avenue
- Citrus Avenue
- State Road 68 / Orange Avenue
- Avenue A
- Avenue C
- Avenue D
- State Road A1A / Seaway Drive

Maintenance of Traffic:

Work will be done in phases to minimize impacts. Lane closures will occur during non-peak hours.

Intermittent sidewalk closures will occur at the various intersections. Detour signage will be in place to direct pedestrian traffic.
