95 Express Phase 3A-1 will extend the existing express lanes north from just south of Broward Boulevard to just north of Commercial Boulevard in Broward County. One lane will be added and the High Occupancy Vehicle (HOV) lane will be converted to create two express lanes in each direction. The number of General Use lanes will remain the same. This project includes ramp signalization from Hallandale Beach Boulevard to Commercial Boulevard. Other work includes: installing Intelligent Transportation System (ITS) and tolling equipment, widening bridges, installing noise barrier walls at locations along I-95 Southbound between Broward Boulevard and NW 6th Street, and along I-95 Northbound between Powerline Road and Commercial Boulevard. Contract time for this \$153 million project began Monday, October 4, 2015, with construction activities currently underway. Construction began August 21, 2016 and is expected to be completed in Summer 2023. ***Please note that this schedule is subject to change due to weather or other unforeseen circumstances.***

As of Summer 2022, project activities are as follows:

- Survey and maintenance activities ongoing
- I-95 traffic shifts to allow for median construction and/or outside widening
- Bridge construction ongoing on I-95 southbound at NW 6th Street and Broward Blvd.
- Mechanically Stabilized Earth (MSE) wall construction along I-95 southbound from Sunrise Blvd. to Broward Blvd.
- Sandblasting and painting I-95 bridge at Powerline Road

Upcoming Project Milestones (weather permitting):

- **Summer 2022:** Continue bridge and road widening work on I-95 in both directions from Sunrise Blvd. to Broward Blvd.
- **Summer 2022:** Continue I-95 southbound bridge tie-in at NW 6th Street
- **Summer 2022:** Continue MSE wall construction along I-95 southbound between Sunrise Blvd. and Broward Blvd.
- **Summer 2022:** Construction of Intelligent Transportation System (ITS) on I-95 in both directions from Davie Blvd. to Commercial Blvd. ongoing
- **Summer 2022:** Continue sign structure, highway lighting, drainage, and barrier wall installation

Maintenance of Traffic:

Lane Closures & Traffic Impacts:

Lane closures occur in the work zone from 10:30 p.m. to 5:30 a.m. Sunday through Thursday. Entrance and exit ramps will be closed as needed. While the department makes every effort to minimize impacts to motorists, it will be necessary to close travel lanes and detour traffic at various times and locations to complete project-related work safely. **Lane closures will be scheduled to occur during the following days/times:**

I-95 lane closures:

Single lanes Closures:

10:30 p.m. – 5:30 a.m., Sunday through Thursday

Two lanes closed:

11:30 p.m. – 5 a.m., Monday through Thursday

Three lanes closed:

midnight – 5 a.m., Monday through Thursday

Four or more lanes closed/full closure:

1 a.m. – 5 a.m.

NOTE: Full closures of I-95 will be required to install overhead signs, etc. These will be advertised well in advance.

Local street lane closures:

Travel lanes on local streets are closed approaching I-95 as needed for project related work. Affected roadways include: Broward Boulevard, NW 6th Street, Sunrise Boulevard, NW 19th Street, Oakland Park Boulevard, NW 38th Street, Powerline Road, Prospect Road, and Commercial Boulevard.

Local street lane closures will occur as needed from 10 p.m. to 5 a.m. Sunday through Thursday. Special coordination will occur as needed for full closures and/or weekend closures. Entrance and exit ramps will be closed as needed with electronic message signs providing advanced notice to motorists.

Project Partners:

95 Express is being developed in partnership with:

- FDOT District Four, FDOT District Six and Florida's Turnpike Enterprises (FTE)
- Broward Metropolitan Planning Organization
- Broward County Transit
- Miami-Dade County Transit
- South Florida Commuter Services

The Design/Build team for this project is The deMoya Group, Inc. and BCC Engineering. Pinnacle Engineering, Inc. provides construction engineering and inspection services on behalf of FDOT.

Project Benefits:

The goal of **95 Express** is to keep traffic moving at average speed of 45 to 50 mph in the express lanes. Motorists with a SunPass transponder are able to use these lanes by paying a toll that adjusts or varies by the level of congestion. Tolls will be higher during peak travel times and lower during off-peak travel times. Toll rates will be displayed on electronic message signs so motorists can choose to use the Express Lanes or stay in the non-tolled general use lanes. Tolls are collected electronically by an "open road tolling" (ORT) system – no toll booths and no stopping to pay.

For information about how you can use 95 Express toll-free, please contact South Florida Commuter services by calling **1-800-234-RIDE (7433)** or emailing www.1800234ride.com.

FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Department will provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity and preserves the quality of our environment and communities.
