

Sequence of Work Schedule

I-95 HOV Expansion Project

Donald Ross Road to Indiantown Road / S.R. 706 (FPN: 406870-2-52-01)

Currently

Work is on-going at the Donald Ross Road interchanges which is estimated to be complete early fall 2009.

Sound wall construction will begin in late June 2009 and is estimated to be complete in early 2010. Construction efforts for this operation will take place during daytime hours, working from the south end of the project (North Palm Beach Heights) northbound (Indian Creek Golf Course). The wall will be 22 feet high. This operation will be closely monitored by project personnel. The order of operations for installing the sound wall is as follows (each step working from the south end north); drilling foundations, setting posts, leveling the ground, setting panels, grading around the panels, reshaping the swale, installing street lights and painting the walls (to take place in 2012 at the end of the project).

Up-Coming

Donald Ross Road Bridge widening will begin in approximately one month and will continue for approximately one year. The Donald Ross Road interchange ramps at I-95 will be signalized after the widening is complete.

In 2010, the contractor will then begin bridge widening over the C-18 canal. This operation will last for approximately one year.

On-Going

Hauling of median fill and drainage construction will continue until complete. Some nighttime construction activities will occur.

Widening of the southbound I-95 travel lanes, toward the median, will take place during daytime and nighttime hours.

Widening of the northbound travel lanes will follow sound wall construction.

For more Information, please contact Alicia De Fago, Public Information Officer at **561-718-4709** or via email 95info@pbfdot.com, **around-the-clock**. You may also visit the public information field office, located at 11641 Kew Gardens Avenue, Suite 101, in Palm Beach Gardens. The office is open Monday through Friday, from 8 a.m. until 5 p.m.

Motorists are encouraged to visit the project Web site: www.pbfdot.com/95Expansion for the latest lane closure information or **call 511** before they drive to get current travel conditions.
