95 Express Lanes Phase 3B-2 will extend the Express Lanes north from just south of Glades Road to south of Linton Boulevard in Palm Beach County. One lane will be added and the High Occupancy Vehicle (HOV) lane will be converted to create two Express Lanes in each direction; the number of General Use lanes will remain the same. Access to the Express Lanes will be provided via two designated ingress and egress locations—between Glades Road and Spanish River Boulevard and between Yamato Road and Linton Boulevard. The scope of work includes reconfiguration of the SR 808/Glades Road Interchange to a Diverging Diamond Interchange (DDI) and the complete reconstruction of the Clint Moore Road bridge over I-95. Additional project improvements include overhead sign structure installation, Intelligent Transportation System (ITS), new signalization, lighting, utility relocation and ramp signaling at five interchanges from Glades Road to Linton Boulevard. Bridge widening will be performed at the Glades Road bridge over the South Florida Regional Transportation Authority (SFRTA) railroad tracks and Military Trail and the I-95 bridge over the C-15 Canal. Time for this \$148 million Design/Build project began Wednesday, June 19, 2019, with design and construction activities currently underway. This project began in November 2019 and is expected to be completed in late 2023. **Please note that this schedule is subject to change due to weather or other unforeseen circumstances.**

As of **Spring 2022**, project activities are as follows:

- Ongoing design, permitting, survey and maintenance activities
- Asphalt paving and overbuild ongoing along I-95 in both directions
- Tree relocation & embankment placement project-wide
- Pond excavation and drainage installation ongoing
- Toll gantry, drilled shafts & median wall demolition and construction ongoing
- Clint Moore Rd. bridge reconstruction ongoing
- ITS infrastructure & lighting installation ongoing
- Roadway widening on Glades Rd. ongoing
- Beam setting for Clint Moore Road bridge over I-95 NB & SB completed February 2022
- Beam setting for Glades Road pedestrian bridge completed February 2022

Upcoming Project Milestones (weather permitting):

- **Spring 2022:** Daytime pile driving on Military Trail & Glades Road for bridge widening - began Feb. 23, ongoing through May
- **Spring 2022:** Continue construction of Glades Road pedestrian bridge
- **Spring 2022:** Continue widening and drainage activities on Glades Road
- **Spring 2022:** Continue embankment construction for widening on I-95 mainline
- **Spring 2022:** Continue overbuild, milling, and resurfacing along I-95
- **Spring 2022:** Continue installation of Lighting, ITS infrastructure and Toll sites
- **Spring 2022:** Continue overhead sign structure installation
- **Spring 2022:** Continue reconstruction of Clint Moore Road bridge over I-95
- **Spring 2022:** Continue road construction on Clint Moore, including sidewalks, curb and fence

For around-the-clock, real time, I-95 traffic information, call 511. To view real-time traffic conditions, visit the Smart SunGuide website at <http://www.smartsunguide.com>. These free services are provided by FDOT and the SunGuide™ Partners.

Maintenance of Traffic:

While the department makes every effort to minimize impacts to motorists, it will be necessary to close travel lanes and detour traffic at various times and locations to complete project-related work safely. **Lane closures will be scheduled to occur during the following days/times:**

I-95 lane closures:

One lane closed:

9 p.m. – 5:30 a.m., Sunday through Thursday

Two lanes closed:

10 p.m. – 5:30 a.m., Sunday through Thursday

Three or more lanes closed/ full closure:

11 p.m. – 5 a.m., Sunday through Thursday

NOTE: Full closures of I-95 will be required to install overhead signs, place bridge beams and pour concrete bridge decks. Special coordination will occur for full closures and/or weekend closures. Some weekend work may be necessary. These closures will be advertised well in advance.

Local street lane closures:

Travel lanes on local streets approaching I-95 will be closed as needed for project-related work. Affected roadways include: Glades Rd, Spanish River Blvd, Yamato Rd, Clint Moore Rd, Peninsula Dr/Congress Ave, and Linton Blvd.

Local street lane closures will occur as needed from 9 p.m. to 6 a.m. Sunday through Saturday. Special coordination will occur for full closures and/or weekend closures.

Project Partners:

95 Express is being developed in partnership with:

- FDOT District Four and Florida's Turnpike Enterprises (FTE)
- Palm Beach Transportation Planning Agency
- The City of Boca Raton
- Palm Beach County Traffic Engineering
- South Florida Commuter Services

The Design/Build team for this project is Prince Contracting LLC. HNTB provides construction engineering and inspection services on behalf of FDOT.

Project Benefits:

The goal of **95 Express** is to keep traffic moving at average speed of 45 to 50 mph in the Express Lanes. Motorists with a SunPass transponder are able to use these lanes by paying a toll that adjusts or varies by the level of congestion. Tolls will be higher during peak travel times and lower during off-peak travel times. Toll rates will be displayed on electronic message signs so motorists can choose to use the Express Lanes or stay in the non-tolled general use lanes. Tolls are collected electronically by an "open road tolling" (ORT) system – no toll booths and no stopping to pay.

For information about how you can use 95 Express toll-free, please contact South Florida Commuter services by calling 1-800-234-RIDE (7433) or emailing www.1800234ride.com.

FLORIDA DEPARTMENT OF TRANSPORTATION MISSION STATEMENT

The Department will provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity and preserves the quality of our environment and communities.
