

SOUTHERN BOULEVARD BRIDGES REPLACEMENT PROJECT

Project Update
Monday, August 23, 2021

Please be advised the city of West Palm Beach will be closing Washington Road from Southern Boulevard to Malverne Road beginning Monday, August 23, for approximately a month to perform emergency sewer and drainage repairs. As a result, the Southern Boulevard Bridge detour for Flagler Drive between Southern Boulevard and Worth Court North will be adjusted (see attached map). Traffic will be detoured as follows:

- Traffic going north on Flagler Drive should: Go west on Worth Court North to Washington Road; go north on Washington Road to Malverne Road; go west on Malverne Road to Olive Avenue; go north on Olive Avenue to Southern Boulevard; and go east on Southern Boulevard to Flagler Drive.
- Traffic going south on Flagler Drive should: Go west on Southern Boulevard to Olive Avenue; go south on Olive Avenue to Malverne Road; go east on Malverne Road to Washington Road; go south on Washington Road to Worth Court North; go east on Worth Court North to Flagler Drive.

For more information on the West Palm Beach emergency repairs, please contact Lina Camacho, West Palm Beach Senior Project Engineer, at (561) 494-1129 or lcamacho@wpb.org.

The Southern Boulevard (SR 80) Bridges Replacement Project includes replacing the existing bascule (draw) bridge and tide relief bridge over the ICWW and Lake Worth Lagoon between the City of West Palm Beach and the Town of Palm Beach. The project limits are between Washington Road in West Palm Beach and State Road A1A/South Ocean Boulevard in Palm Beach. New decorative lighting, pedestrian features, traffic signals, signage and drainage are included. A temporary bridge has been built north of the existing bridge to maintain traffic while the replacement bascule bridge is under construction. Active construction began April 3, 2017 and will last until late 2021. The estimated construction cost is \$95 million.
